

No. of health /sensitization programmes organized

Government College Seraj has organized several health and sensitization programs, but unfortunately, I couldn't find the exact number. However, I can provide some information on similar programs conducted by other institutions.

Health and Sensitization Programs:

- **Gender Sensitization Programs:** These programs aim to promote gender equality and awareness. For instance, JECRC Foundation conducted a sensitization program for security personnel deployed on campus, resulting in a 91% satisfaction rate among survey respondents¹.

- **Guest Talks and Workshops:** SGT University organized a guest talk on "Gender Sensitization and Capacity Building on Women's Legal Rights"².

- **Health Awareness Programs:** Institutions often conduct health awareness programs, including workshops, seminars, and rallies.
