Green initiatives of Institution

Government College Seraj at Lambathach has taken several initiatives to promote sustainability and green practices. One of the notable initiatives is the Eco Club, which aims to foster environmental awareness and encourage students to participate in eco-friendly activities.

The college is situated in a beautiful hilly terrain, surrounded by dense pine and deodar trees, and is committed to preserving its natural beauty. To achieve this goal, the college has implemented various green initiatives, including:

- **Tree Plantation Drives:** Organized by the Eco Club and the National Service Scheme (NSS) unit of the college.
- **Waste Management:** The college has implemented a waste management system to reduce, reuse, and recycle waste.
- **Energy Conservation:** The college promotes energy conservation by using energy-efficient lighting and equipment.
- **Water Conservation:** The college has implemented rainwater harvesting systems to conserve water.

Additionally, the college encourages its students to participate in environmental activities, such as:

- **National Service Scheme (NSS):** The college has an active NSS unit that organizes environmental awareness programs, cleanliness drives, and other community service activities.
- **Rovers and Rangers:** The college has a Rovers and Rangers unit that promotes outdoor activities, environmental awareness, and community service.
