## Student's Feedback 2023-24

### Introduction:

Students were asked to provide feedback on teachers, infrastructure, curriculum, and non-teaching staff to evaluate the success and relevance of the programs, syllabi, teaching methods, and facilities.

### Objectives:

To assess student satisfaction with curriculum and effectiveness of teaching methods, syllabi, and infrastructure.

### Methodology:

Data was collected from 188 students through the Self-selection Sampling Method, which accounts for about 37% of the total student population. A well-structured questionnaire was used to gather information from the stakeholders. The collected data was edited, tabulated, and analysed. The percentages of various opinion scales such as excellent, very good, good, and average were calculated and presented as bar diagrams.
